Islamic lifestyle extracting from Molavi's poems

- 1- Mehrdad Roshan Zadeh
- 2- Seyed Mohammad Hashemi Fard

Abstract

The way of life indicates human ideas , values and religious beliefs and the believing principles -which are the foundations of Islam religion - set in the underlying layers of recognition and has an inevitable effect on how human lifestyle is formed . Meanwhile ,the poet 's attention to Imam 's lifestyles is mainly and directly related to the profundity of his knowledge , his mystic behaviors , and his spiritual continuity. The purpose of this research is to extract the ways and samples of Islamic life style in believing and ethic dimensions based on investigating Molana 's poems and opinions in this regard. In relation to the religious knowledge and lifestyle models and samples, Molana represented all of his desired samples perceptively based on his impression of the Holy Quran and Hadises in his work. The present study is based on the library research .It investigated a two-sided interaction between "Molana's life style and poems". It also proved that there is an inevitable relation between these two elements

Keywords : Islamic lifestyle, Molana, Mathnawi , Shams collection

**The effects and excellent culture achievements of culture in the light of prayer
Case study "Dealing with the psychological operations and enemies Soft war**

- 1- Dr Ali Sadeghi
- 2- Bahman Babaei

Abstract

Prayer" is the easiest, most profound and most beautiful human relationship with God." Prayer is a shaving si system as muslim graping on it, washes away pollution and progress their own spirit

In a muslim society, prayer is the cultural signs and faith symptoms. It is cultural forehead if Islamic community that facilitates making culture and shows spirituality culture and magnificent society of believers and with it, is formed culture safety in individual and society. Prayer is the main approach of cultural guidance that in Islam religion cultural objectives, social discipline and culture transmission is founded on it

Today, with the abundance of Islamic Revolution and Islamic awakening emanating from it, Iran and muslim communities have taken the path of progress and prosperity, western societies that for various reasons, have been unable directly to fight are determined by every possible means including psychological operations and soft war, while weakening Iranian-Islamic culture create the field of secular minds and anti-Islamic in these communities

This researchis done with analytical method and using the library resources, shows that " Prayer " is an important factor in preventing this atention and also is a very important .factor in the spread of Iranian-Islamic culture

The person stands in front of Almighty God and shows his slavery five times everyday,be his fancy slavery and the person expressed his helplessness on God's home, ?how can go to evil's home

Such the conscious prayer, man and society and promises high culture and utopia

Keywords: Prayer, culture, psychological warfare, Soft war, Islamic Republic of Iran

Criticism on position Fantasy in Persian textbooks (Elementary second to finish high school first)

1-Hamed Shekoufegi

2-Dr. Sakineh Ahmadiyan

Abstract

The literature classified to variety in new genres. One of the genres that today in between of the audience and culture lovers of different nations, especially children and adolescents is considered popular and every year allocated an important part of cultural products such as books and audiovisual media, is genre of fantasy or supernatural stories. Fantasy is the undeniable positive effects from different directions such as: help to grow experimental understanding of children, strengthen the understanding of imaginary children and adolescents, foregrounding the history and national heroes and cultural backgrounds of each nation in soul and mind of students in levels of school. Although in the modern sense of in our country don't have a history of research, but a lot of examples have also in oral literature and folklore and in the official literature and classical Persian like some of Shah nameh stories, thousand and One Nights and seven bodies. In this paper paid to study of fantasy and its role in children and adolescents the amount of interest that authors of books of Persian high school to the ninth base in a new way of these stories. It seems although in the Persian books to the ninth grade included a few stories gained a majority of fantasy features, but first, they are few with regards to the base effect and need this genre of story in this base students and secondly in selecting these little stories been priority a purpose other than their fantasy
